

RESPECT IN SPORT POLICY (PARENTS)

For the 2022 season, at least one parent/guardian per athlete must have completed the Respect in Sport– Parent program prior to any junior Championship.

Parents who have already completed the program for other sport organizations, will need to choose “yes” from the drop down during the registration process and then import their certificate number using the link below.

If a parent of a competitor has not completed the program prior to any Junior Golf Ontario Championship, they will not be permitted on the golf course.

The Respect in sport – Parent program is a one-hour online program which can be done anywhere, anytime and it is strongly recommended the program is completed together as a family so as many members as possible will have the benefit of the information that this program provides.

To complete the Respect in Sport – Parent Program or to import your certificate of completion, please open the following link: <https://golfcanadaparent.respectgroupinc.com/>
